

Anatomy & Physiology	Where's the air? A novel way to find out how wild echolocating whales manage air for sound production in deep dives	APH01
Anatomy & Physiology	Morphological and histopathological study of the larynx of odontocete cetaceans stranded in the Canary Islands	APH02
Anatomy & Physiology	Cranial nerves in dolphins	APH03
Anatomy & Physiology	EVALUATION OF DIFFERENT METHODOLOGIES FOR THE MORPHOLOGICAL ANALYSIS OF THE SPIRAL GANGLION OF CETACEANS	APH04
Anatomy & Physiology	First records of sperm whale ( <i>Physeter macrocephalus</i> ) with anomalously white pigmentation in the Tyrrhenian Sea. A living, Mediterranean Moby Dick?	APH05
Anatomy & Physiology	Dynamic of dentin and cement deposited on vestigial teeth of the Pacific walrus	APH06
Anatomy & Physiology	The seasonal buoyancy budget of harbour porpoises ( <i>P. phocoena</i> ) during dives	APH07
Anatomy & Physiology	Prediction of the cochlear frequency map for beluga	APH08
Anatomy & Physiology	Dorsal fin vascular anatomy in the Indian Ocean humpback dolphin ( <i>Sousa plumbea</i> ) and the Indo-Pacific bottlenose dolphin ( <i>Tursiops aduncus</i> )	APH09
Anatomy & Physiology	Investigations of the Reproduction Biology of Seals from the North and Baltic Seas	APH10
Anatomy & Physiology	Light postcranial skeleton vs heavy skull: a possible deep diving adaptation in beaked whales (Cetacea: Ziphiidae)	APH11
Anatomy & Physiology	How deep can we go	APH12
Anatomy & Physiology	ANATOMICAL CORRELATES OF HONEST COMMUNICATION IN SOUTHERN ELEPHANT SEALS	APH13
