

Management & Conservation	From local to regional: acoustic monitoring targeting MSFD's and Cetacean's Good Environmental Sound Status	MC01
Management & Conservation	Whale-watching in Russia: from idea to implementation. Experience of creating and conducting tourist scientific expeditions for the observation of marine mammals in the Black sea.	MC02
Management & Conservation	First assessment of pinger use with fishing gear in Maltese waters: addressing dolphins-fishermen conflicts	MC03
Management & Conservation	Social aspects and prerequisites for the development of whalewatching in Russia.	MC04
Management & Conservation	Assessing short- and long-term individual exposure rate of two cetacean species to whale-watching activity in Madeira Island (NE Atlantic)	MC05
Management & Conservation	Collaboration between academia, industry and regulators to investigate cetacean collision risk from tidal turbines	MC06
Management & Conservation	Marine pollution caused by Floating Marine Macro Litter and comparison with presence, spatial distribution and density of cetaceans, in the Pelagos Sanctuary	MC07
Management & Conservation	Last chance for the Vaquita: Operation Milagro.	MC08
Management & Conservation	A combined social-ecological approach for the assessment of the Samadai Reef management plan	MC09
Management & Conservation	Towards the first sustainable whale watching enterprise in Malta: the challenge of merging public awareness with research.	MC10
Management & Conservation	Space and perspectives: are the Ringed seals in the Gulf of Finland approaching the vanishing point?	MC11
Management & Conservation	Marine renewable energy as a positive force in marine mammal conservation: Strategic partnerships provide impetus for improved marine mammal science and conservation	MC12
Management & Conservation	MARCET Project: International and Multidisciplinary Network for the conservation of cetaceans and the promotion of a sustainable tourism associated with whale watching activity in the Macaronesian waters	MC13
Management & Conservation	Cetacean Conservation: Science and policy working in partnership	MC14

Management & Conservation	Long term projects on cetaceans need more than just good science.	MC15
Management & Conservation	Investigating potential causes of population change in a coastal bottlenose dolphin community	MC16
Management & Conservation	Mapping current and future risks to the globally significant marine habitat of Chilean Patagonia	MC17
Management & Conservation	CETACEAN ACOUSTIC DIVERSITY IN THE SOUTH ATLANTIC OCEAN: COMPLIMENTARITY OF TECHNIQUES APPLIED FOR MARINE CONSERVATION	MC18
Management & Conservation	Marine activities causing harassment to common, striped, bottlenose dolphins in the waters between Gibraltar and Algeciras	MC19
Management & Conservation	Observing Cetaceans From Land – Developing Co-operation as the Driving Force Behind Sustainable Whale Watching Tourism	MC20
Management & Conservation	Co-occurrence of Bottlenose dolphin and human activities along the Mediterranean French continental coasts	MC21
Management & Conservation	Camera-trap surveillance of the endangered Mediterranean Monk Seal in the Gökçeada Island, Northern Aegean Sea, Turkey	MC22
Management & Conservation	Using expert elicitation to identify research priorities for harbour porpoise conservation in the North Sea	MC23
Management & Conservation	Study of the interaction events between bottlenose dolphins and the midwater pair trawlers: assessment of the effectiveness of pinger by using the passive acoustic monitoring and photo-identifications technique	MC24
Management & Conservation	Revisiting Natura 2000 network from a Systematic Conservation Planning perspective: the endangered Mediterranean common dolphin subpopulation as a case study	MC25
Management & Conservation	Striped dolphin coastal population and boat traffic off Antibes: a conservation challenge.	MC26
Management & Conservation	Can human activities influence foraging habitat selection in wild bottlenose dolphins?	MC27
Management & Conservation	The alarming case of the dolphin-fisheries interaction in Thermaic Gulf, Greece	MC28

Management & Conservation	Creating a whale sanctuary in the Western Indian Ocean: between local normative instruments and international cooperation for a network governance (case study with the "whale route")	MC29
Management & Conservation	The Development of a Network of Local Land-based Surveyors on the Isle of Man	MC30
Management & Conservation	How to exploit the environmental value of the Posidonia prairies	MC31
Management & Conservation	Interaction of common, striped and bottlenose dolphins with marine debris in the waters between Algeciras and Gibraltar	MC32
Management & Conservation	FIRST MARINE MAMMALS RISK-ASSESSMENT INVESTIGATION ALONG THE STRAIT OF SICILY USING FIXED-LINE TRANSECTS	MC33
Management & Conservation	A Mediterranean monk seal as votive in the museum of Mycenae, Greece	MC34
Management & Conservation	Five years of monitoring marine species along Sardinia and Sicily Channel: the threat of marine litter on marine biodiversity	MC35
Management & Conservation	Problem of the keeping of marine mammals in captivity in Ukraine	MC36
Management & Conservation	Use of ICCAT Atlantic-Wide Research Programme for Bluefin Tuna (GBYP) to monitor striped dolphins (Stenella coeruleoalba) in the Balearic Islands	MC37
Management & Conservation	Middelfart Listening Station – a successful story of a joint effort between multiple stakeholders.	MC38
Management & Conservation	Dzharylgach: a newly discovered important area for cetacean conservation in the north-western Black Sea	MC39
Management & Conservation	Do whale watching activities positively impact Tarifa village? A case of study in the Strait of Gibraltar	MC40
Management & Conservation	Understanding and reducing marine mammal tourism disturbance; the UK situation.	MC41
Management & Conservation	CMS COP12 – Advancing towards a holistic conservation policy for marine species	MC42

Management & Conservation	Ship strike risk for blue whales (<i>Balaenoptera musculus</i>) in northern Chilean Patagonia is a growing concern	MC43
Management & Conservation	Influence of boat tourism on the behavior of beluga whales (<i>Delphinapterus leucas</i>) of the Solovetsky Island, Onega Bay, White Sea	MC44
Management & Conservation	Pingers as deterrent of dolphins interacting with artisanal fishery in the Aeolian Archipelago (Sicily, Italy): efficiency, conservation concerns and other possible solutions	MC45
Management & Conservation	Acoustic deterrent devices as a possible solution for reducing depredation of artisanal gill nets by bottlenose dolphin (<i>Tursiops truncatus</i>) in the Aeolian Archipelago (Italy)	MC46
