

POSTER SESSION A – EVEN POSTER # LIST

Tuesday April 18th 16:00-17:30

#	Title	First Author	Topic
2	Filling in knowledge gaps on the Risso's dolphin (<i>Grampus griseus</i>) in the Balearic Islands, Mediterranean Sea, and notes on their value as an indicator species for open sea MPAs	Alexander Sanchez Jones	A&D
4	Estimating sperm whale availability for sperm whale (<i>Physeter macrocephalus</i>) density surveys	Nuno Fialho	A&D
6	Using citizen science to determine the frequency and distribution of Harbour porpoise sightings across Sussex	Victoria Hope	A&D
8	Bottlenose dolphin's habitat use in Faro coastal and inshore waters: Preliminary results	Megan Mackey	A&D
10	The BICREF-RMSR cetacean monitoring in the Central Mediterranean	Joseph G Vella	A&D
12	SCANS-IV: Small cetacean abundance in European Atlantic waters and the North Sea in 2022	Anita Gilles	A&D
14	Orcas in the Azores: Photo-identification & description of an apex predator visiting São Miguel	Georgina Cabayol	A&D
16	Sighting durations during commercial whale-watching recorded in three years in the Pelagos Sanctuary	Robin Caron	A&D
18	Changes in the distribution and abundance of marine mammals in the North Sea associated with present and future wind farm developments.	Sophie Crouch	A&D
20	Cross-sightings between the Azorean and Iberian killer whale (<i>Orcinus orca</i>) populations.	Paula Moreno	A&D
22	Pinniped Records in Atlantic Coasts of Spain and Portugal Between 1990 and 2019	María Becerra	A&D
24	Distribution and year variation in population estimates of the short-finned pilot whale (<i>Globicephala macrorhynchus</i>) in the southwest of Tenerife (Canary Islands).	Atenary Pimentel	A&D
26	Distribution pattern of short-beaked common dolphin (<i>Delphinus delphis</i>) in the Dodecanese archipelago (Eastern Aegean Sea, North-Eastern Mediterranean Sea)	Maurizio Ingrosso	A&D
28	Mark-recapture estimates of bottlenose dolphins on the south coast of Portugal	Fábio L. Matos	A&D
30	Multi-scale analysis of killer whale habitat use in Icelandic waters	Ayça Eleman	A&D
32	Habitat preference of Risso's dolphins (<i>Grampus griseus</i>) in the south coast of Portugal	Miguel Martins	A&D
34	First catalogue of Risso's dolphin (<i>Grampus griseus</i>) in Normand-Breton Gulf and preliminary study on their habitat use	Oihana OLHASQUE	A&D
36	Distribution and habitat use of common dolphins (<i>Delphinus delphis</i>) in the Northern coast of Continental Portugal	Cláudia Oliveira-Rodrigues	A&D
38	Distribution, social structure and habitat use of the short-finned pilot whale (<i>Globicephala macrorhynchus</i>) in the Lesser Antilles.	Valentin Teillard	A&D
40	Advances in the knowledge of the Mediterranean-Atlantic migration of the fin whale (<i>Balaenoptera physalus</i>) in the Iberian Mediterranean corridor. Data collection, migration periods and swimming speeds	Rocío Espada Ruiz	A&D
42	Bottlenose dolphins in the western Mediterranean Sea: abundance and interactions with fisheries	Aixa Morata	A&D
44	Increasing presence of Risso's dolphins (<i>Grampus griseus</i>) in Arctic waters off the Norwegian coast	Femke de Ruiter	A&D
46	Mark-recapture analysis of sperm whale (<i>Physeter macrocephalus</i> , Linnaeus 1758) movements in the Ligurian Sea, Tyrrhenian Sea and Gulf of Taranto through photo-identification analysis.	Agata Irene Di Paola	A&D
48	Changing patterns: are nursery and mating areas of Southern Right Whales - <i>Eubalae australis</i> (Desmoulins, 1822) - getting overlapped?	Marina Batochio	A&D

50	Influence of fish farms and bottom trawlers on habitat utilization of coastal dolphins along the Israeli Mediterranean shallow shelf	Yotam Eldar Zuriel	AC
52	Highlighting fin whale important areas in Mediterranean Spanish waters using passive acoustic monitoring	Blanca Feliu-Tena	AC
54	Use of a kurtosis adjustment to received levels for predicting sound exposure in marine mammals	David Zeddies	AC
56	Volitional Control of Vocalisations in Bottlenose Dolphins (<i>Tursiops truncatus</i>)	Thomas Jenks	AC
58	Acoustic Estimation of the Abundance of Sperm Whales in the Canary Islands: an Archipelagic Distance Survey	Daniel Miranda	AC
60	Humpback whale songs in the Colombian Pacific and in the Tanzania Indian Ocean: same subpopulation and season but different song pattern	Isabel Avila	AC
62	A mitigation approach to reduce dolphin-fishery interaction using acoustic deterrent device on trammel nets in the Northern Tyrrhenian Sea (Tuscany, Italy)	Ilaria Ceciarini	AC
64	Detection and classification of delphinid vocalisations in Skagerrak waters from autonomous acoustic recorders.	Emily T Griffiths	AC
66	Monitoring of cetacean diversity in the central Mediterranean Sea using a single static acoustic sensor	Sara Ferri	AC
68	Playing hide and seek underwater: Evidence of orca (<i>Orcinus orca</i>) presence in Icelandic waters through acoustic analysis	Giulia Bellon	AC
70	Development of a Machine Learning Detector for North Atlantic Humpback Whale Song	Vincent Kather	AC
72	First analysis of sperm whale (<i>Physeter macrocephalus</i>) vocalizations in the Aeolian Archipelago (Sicily, Italy)	Giulia Giorgi	AC
74	Biscayan and Azorean common dolphins whistle the same tune	Alexandre Gannier	AC
76	Geographic Variation of Bottlenose Dolphin Whistle Characteristics in Galician and Sardinian Waters	Syam nath	AC
78	CLIC PROJECT "Cetacean Listening Investigation for Conservation": preliminary results.	Carlo Guidi	AC
80	Less is more? How the choice of a recording duty cycle could affect monitoring results of passive acoustic studies on cetaceans	Mathilde Michel	AC
82	Verifying the acoustic presence of southern right whales (<i>Eubalae australis</i>) off Elephant Island, Antarctica.	Svenja Wöhle	AC
84	The first record of acoustic and visual behaviour of a stressed Bottlenose Dolphin calf in Budva, Montenegro	Jessica-Louise Sheppard	BEH
86	The Fast and the Furious - Mating behaviour of wild harbour porpoises (<i>Phocoena phocoena</i>) in the Western Baltic Sea	Tom Bär	BEH
88	Cultural evolution of close-range killer whale calls	Vera Fedorova	BEH
90	Reproductive success of female bottlenose dolphins (<i>Tursiops truncatus</i>) in an ultra-oligotrophic marine environment	Kim Kobo	BEH
92	Analysis of the disruptive behaviour of Iberian orcas (<i>Orcinus orca</i>)	CRISTINA MARTIN	BEH
94	The effects of vessel traffic on the behavioural pattern of common dolphins, in Tagus Estuary (Portugal)	Iolanda Silva	BEH
96	Micro, meso and large scale movements of the Galician bottlenose dolphin populations based on the FotoID technique	Alfredo López	BEH
98	Associations and site fidelity of bottlenose dolphins (<i>Tursiops truncatus</i>) in the Strait of Sicily.	Alessandra Vanacore	BEH
100	Effects of ship traffic on the distribution of harbour porpoise (<i>Phocoena phocoena</i>)	Alexander Schubert	BEH
102	Solitary' mother-calf bottlenose dolphin pair in long-term residence around the Isle of Man following potential record distance movement from home population	Bryony Manley	BEH
104	Influence of marine traffic on the resident common bottlenose dolphins (<i>Tursiops truncatus</i>) behaviour in Ria de Arousa, Galicia, Spain	Anna Karamiseva	BEH
106	Long-term social structure dynamics of short-finned pilot whales on Madeira Island	Ruth Esteban	BEH
108	Temporal analysis of changes in marks of bottlenose dolphins' dorsal fin in the Western	Andrea Carolina Pedrazzini	BEH

	Ligurian Sea		
110	Behavior and natural circadian rhythms of wild bottlenose dolphin (<i>Tursiops truncatus</i>) in Galicia (NW Spain)	Jeroni Barbeta	BEH
112	Diving behaviour of fin whales and blue whales and influence of marine traffic	David Mattatia	BEH
114	Ship strikes: two cases of fin whales stranded on the South Atlantic Spanish coast.	Carolina Fernández Maldonado	CON
116	Cetacean Excluder Devices, a Promising Mitigation Measure for Dolphin's Bycatch in Pair Trawl Fisheries	Nair Vilas Arrondo	CON
118	Integrated climate, ecological and socioeconomic scenarios for the whale watching sector	Andreia Sousa	CON
120	Preliminary research results on the incidence of plastic marine litter in the Central Mediterranean Sea	Carla Tumino	CON
122	Assessing Natura 2000 sites in the Central Mediterranean for Cetacean Conservation	Adriana Vella	CON
124	Crime scenes at sea: Deliberate killing of marine mammals in Türkiye (2014-2022)	Ayaka Amaha Ozturk	CON
126	Fisheries and delphinids: a conservation issue at Eastern Spain waters	Mar Izquierdo-Serrano	CON
128	30 years of the Shannon Dolphin Project: A celebration of one of Europe's longest bottlenose dolphin population study	Mags Daly	CON
130	Spatiotemporal distribution of suspected bycatch in grey seals in Mecklenburg-Western Pomerania	Farina Reif	CON
134	The establishment of a regional stranding network on the southwest coast of mainland Portugal (Alentejo): first results and challenges.	Francisco Neves	CON
136	The Scottish Entanglement Alliance: A collaborative search for solutions	Alistair Philp	CON
138	The Important Marine Mammal Area network: new updates on the growing tool for assisting global conservation efforts to protect marine mammal habitats	Margherita Zanardelli	CON
140	The Gulf of Catania: an eligible zone for a Specially Protected Area	Ilaria Saldutti	CON
142	"Cetaceans - an indicator of the state of the Black Sea environment"	Zornitsa Zaharieva	CON
144	An unusually high number of cetacean strandings in the Black Sea, 2022 - is it the consequence of war?	Karina Vishnyakova	CON
146	Gear use, recovery and disposal in the Scottish inshore creel fishery	Ellie MacLennan	CON
148	Caribbean Cetacean Society: Going beyond island frontiers for cetacean conservation in the Lesser Antilles	Rocío Prieto González	CON
150	The French MSFD marine mammal monitoring programme for 2022-2028	Benjamin GUICHARD	CON
152	Tour-operators as key tool to improve information on data deficient cetacean species	Rui Peres dos Santos	CON
154	Three decades of harbor porpoise reproduction at the German coast	Britta Schmidt	CON
156	First insights on differential bycatch risk of bottlenose dolphins (<i>Tursiops truncatus</i>) off the southern Iberian coast	Ana Fialho	CON
158	Evaluation of parameters determining rehabilitation success of harbour porpoises (<i>Phocoena phocoena</i>) to assist in adequate decision-making during stranding events	Annemarie van den Berg	CON
160	Combining Citizen Science and Land-Based Surveys as a Tool for Research Cetaceans and Sustainable Use of the Marine Resources in a Special Area of Conservation	Estefanía Martín Moreno	CON
162	Cetacean habitat under pressure : the case of the bottlenose dolphin in the Gulf of Lion	Léa DAVID	CON
164	Marine debris ingestion in five cetacean species stranded along the Italian coast	Matteo Baini	CON
166	The Gulf Of Dolphins: a multi-stakeholder project at the service of the bottlenose dolphins conservation	Cristina Fiori	CON
168	Dolphins don't care about politics: the challenges of studying cetaceans in a politically sensitive area	Yaly Mevorach	CON
170	Towards effective management of marine mammals in MPAs: the Marine Mammals Management Toolkit.	Francis Staub	CON

172	Joint Cetacean Data Programme: developing a cetacean data community for the benefit of cetacean science	Nichola Clear	CON
174	The benefits of long-term data collection on cetaceans in Skjálfandi Bay, Northeast Iceland in collaboration with whale watching	Charla Jean Basran	CON
176	Conservation efforts to protect marine mammals in the southern Baltic Sea	Andrzej Ginalska	CON
178	Influence of environmental conditions on the occurrence, spatial use, and health of bottlenose dolphins in northcentral Gulf of Mexico	Thibaut Bouveroux	ECO
180	Can global warming cause a northward shift in the distribution of <i>Balaenoptera edeni</i> in the North Atlantic? Insights from opportunistic data	Judit Miquel i Bosch	ECO
182	Social structure of bottlenose dolphins (<i>Tursiops truncatus</i> , Montagu 1821) off Lampedusa Island (Strait of Sicily, Italy).	Valentina Corrias	ECO
184	Data access restrictions: the potential of currently unavailable marine mammal data	Jaz Harker	ECO
186	25 Years of Research on Killer Whales in the Strait of Gibraltar. A Review	Maria Cinta Sabaté Gil	ECO
188	Exploring the habitat preferences and niche segregation of two teutophagous cetaceans in the Azores islands	Marc Tolosa	ECO
190	Long-term changes in the trophic position of dolphins in waters of Galicia (Northwest of Spain)	Marie A.C. Petitguyot	ECO
192	Stability and fluidity of short-finned pilot whale social groups of known sex off Madeira Island	Mieke Weyn	ECO
194	Does the "medical" smell of gray whales persist from season to season in the Senyavin Strait?	Tatiana Pridorozhnaya	ECO
196	Photo-identification of fin whales in inshore Irish waters: building a catalogue to support citizen science	Rebecca Dudley	ECO
198	New insights into sperm whale social units presence in the western Ligurian Sea (NW Mediterranean Sea)	Caterina Lanfredi	ECO
200	Impact of climate change on marine mammals around the UK (MCCIP Review 2022)	Emily Martin	ECO
202	Twenty years of temporal trend assessment for regulatory trace elements in common dolphins and harbour porpoises from French Atlantic waters	Paula Méndez Fernandez	ECO
204	Photo-identification catalogue for Mediterranean monk seals - a functional methodology	Luigi Bundone	ECO
206	Trace elements in fin whales off Western Iceland	Asunción Borrell	ECO
208	Multiple collapses in ecological niche size reflect historic trophic alterations in the Black Sea ecosystem	Magie Aiken	ECO
210	Investigating dolphin connectivity in south-east Queensland, Australia	Georgina Victoria Hume	ECO
212	Diet of sperm whales in the Azores: first results from a faecal DNA metabarcoding approach	Stephanie Renée A Suciú	ECO
214	Proteome profiling reveals opportunities to investigate biomarkers of health in blubber biopsies from free-ranging baleen whales	Joanna Kershaw	ECO
216	Examining spraint of the Eurasian otter (<i>Lutra lutra</i>) as a potential method for biomonitoring marine debris	Michael Vourtsis	ECO
218	Krill and penguins dominate the diet of young and sub-adult male Antarctic fur seals (<i>Arctocephalus gazella</i>) year-round	Massimiliano Drago	ECO
220	Population Genetics of the Bottlenose Dolphin (<i>Tursiops truncatus</i>) Based on Mitochondrial DNA	Brenda Alexandre	G&E
222	Preliminary insights on the genetics of the Inner Mediterranean Sea long-finned pilot whale (<i>Globicephala melas</i>)	Marianna Marangi	G&E
224	Supraoccipital length as an alternative to condylobasal length for relativizing skull morphometric characters in the family Delphinidae	María del Carmen Aldir	G&E
226	Spatiotemporal occurrence and prehistoric exploitation of small odontocetes in the Holocene Baltic Sea	Sarah Victoria Veronika Aarup Saboya de Medeiros	G&E
228	Evaluation of eDNA primers for coastal UK marine mammal species	Samantha Parker	G&E

230	New results on striped dolphins feeding habits in the Pelagos Sanctuary: could crustaceans be non-anecdotal?	Adrien C. Gannier	HPP
232	Herpesvirus-associated genital lesions in two short-beaked common dolphins (<i>Delphinus delphis</i>) stranded in Península Valdés, Argentina.	Carla Fiorito	HPP
234	A Blainville's Beaked Whale Stranded in the Canary Islands Due to an Attack of Orcas with a Review of the Strandings of the Species in the Archipelago	Francesca Fusar Poli	HPP
236	The application of a post-mortem diagnostic framework to determine cetacean fishery-interaction index	Guido Pietroluongo	HPP
238	Design and application of a real time molecular polymerase chain reaction (PCR) for the detection of <i>Erysipelothrix rhusiopathiae</i> in cetaceans	Eva Sierra	HPP
240	Budd-Chiari-like pathology in dolphins	Antonio Fernandez	HPP
242	First report of vaginal stone in the common dolphin from the Black Sea coast of Türkiye	Isil Aytemiz Danyer	HPP
244	Anatomopathological findings on harbour porpoises (<i>Phocoena phocoena</i>) stranded in Galician coast, NW Spain	Xabier Pin	HPP
246	Modeling transference levels of <i>Anisakis</i> parasites from main prey species to common dolphin in the Northeast Atlantic ocean	Miguel López	HPP
248	Prevalence of skin lesions in wild bottlenose dolphins (<i>Tursiops truncatus</i>) in the NW Mediterranean Sea determined through photo-identification analysis	Francesca Battaglia	HPP
250	Analysis of causes of death in necropsied common dolphins in Cornwall, UK (2018-2022) illustrates the continued threat of bycatch for this species	James Barnett	HPP
252	Combination of Scoliosis-Kyphosis-Lordosis Deformities and Infectious Processes Observed in a Wild Adult Bottlenose Dolphin with By-Catch Evidence	Nuria Alemañ	HPP
254	Temporal trends and influence of biological variables on bisphenol and phthalate concentrations in Mediterranean striped dolphins (<i>Stenella coeruleoalba</i>)	Morgana Vighi	HPP
256	Biometric study of small cetaceans in Galicia (NW Spain)	Mónica González	HPP
258	Fatal infection of influenza A virus in a harbor porpoise (<i>Phocoena phocoena</i>)	Elina Thorsson	HPP
260	Host size and microhabitat suitability as potential drivers of body size and sexual dimorphism of whale lice	Sandra Gonzalez-Campos	HPP
262	Significant multi-decadal changes in the intestinal helminth fauna of Mediterranean striped dolphins, <i>Stenella coeruleoalba</i> : what do they reveal?	Alicia García-Gallego	HPP
264	Histological analyses of the stomach of an odontocete, the harbor porpoise (<i>Phocoena phocoena</i> L.)	Lisa Klemens	HPP
266	What a ball of nets in a bottlenose dolphin, <i>Tursiops truncatus</i> stomach can tell?	Jan Hofman	HPP
268	Radiological study of the harbour porpoise pectoral fin (<i>Phocoena phocoena</i>) in Galicia (NW Spain)	Laura Lusquiños Pascual	HPP
270	Occurrence of tattoo skin lesions in bottlenose dolphins (<i>Tursiops truncatus</i>) related to exceptional climatic events in the Western Ligurian Sea	Davide Ascheri	HPP
272	Categorizing and defining externally detected deformities in free-ranging cetaceans	Ana Mafalda Correia	HPP
274	<i>Brucella ceti</i> infection in cetaceans from Italian Seas: associated lesions and epidemiological data.	Virginia Mattioda	HPP
276	Body condition and allometry of free-ranging short-finned pilot whales in the North Atlantic	Patricia Arranz	HPP
278	The identification of cetacean aggregation areas based on species distribution models	Mario Ramírez-León	MOD
280	Where and when? Monthly habitat suitability prediction of two teutophagous cetaceans in the Azores	Marc Ruiz-Sagalés	MOD
282	Investigating the environmental drivers of <i>T. truncatus</i> acoustic presence in Ría de Arousa, Spain	Zofia Krynicka	MOD
284	Drivers of pelagic bottlenose dolphin (<i>Tursiops truncatus</i>) habitat use in Galician waters (Northwestern Spain)	Nathalie Dunel Roig	MOD
286	Matching visual and acoustic detections to estimate detection probability for small cetaceans in the ACCOBAMS Survey Initiative.	Camille Ollier	MOD

288	New research platform offers unprecedented opportunities for studying Northern bottlenose whales in the Arctic	Annika Caroline Reinholdt	TEC
290	Gollum: Our Tresaure is Now Open. Common Creative Licence to the Data Collected by Circe Since 1996.	Inmaculada Rivas	TEC
292	Investigating laterality and spatial associations in common dolphin mother-calf pairs using an unmanned aerial vehicle	Alicia Quirin	TEC
294	while AtSea, we prefer an open platform data collection	Michele Manghi	TEC
296	Whale Track: Expanding community-based cetacean monitoring on the west coast of Scotland using a smartphone app.	Alison Lomax	TEC
298	Unmanned Aerial Systems: how does altimetry noise affect morphometric measurements? A case study on Mediterranean whales.	Isabel Fernandez-Mc Auley	TEC
300	Satellite Tracking of Rehabilitated Grey Seal Pups (<i>Halichoerus Grypus</i>) in the Baltic Sea: Determination of Survival and Adaptation	Laura Lupeikaité	TEC
302	What the F-POD? Investigating the performance of the F-POD V C-POD for ecological monitoring of harbour porpoise (<i>Phocoena phocoena</i>).	Nicole Todd	TEC
304	Persistent Organic Pollutants in harbour porpoises (<i>Phocoena phocoena</i>) stranded in the Portuguese coast	Ana Sofia Tavares	HPP
306	Alternative migration strategies of fin whale in Svalbard Islands (Norway) revealed by passive acoustics	Elena Papale	AC

POSTER SESSION B – ODD POSTER # LIST

Wednesday April 19th 16:00-17:30

#	Title	First Author	Topic
1	First assessment of occurrence, distribution, and encounter rates of cetaceans in Lisbon region (Portugal)	Francisco Martinho	A&D
3	A preliminary report on the overlap between the distribution of Tursiops truncatus and Cruise ships in Montenegrin territorial waters between 2017 and 2021.	Thalia de Haas	A&D
5	Long-Term Abundance Estimates of Bottlenose Dolphin (Tursiops truncatus) In The Gulf of Cádiz	Roc Xanxo Prillo	A&D
7	Using Citizen Science to better understand presence Risso's dolphins (Grampus griseus) in north-east Scotland and the Northern Isles	Nicola Hodgins	A&D
9	Baleen Whales in Southeastern Portugal: short review on Seasonal Occurrence	Alfredo Rodrigues	A&D
11	Abundance of Cuvier's Beaked Whale (Ziphius cavirostris) in the Alboran Sea	Sofía Rojas Cirera	A&D
13	False killer whales (Pseudorca crassidens) in São Miguel Island, Azores: Long-term resightings and associations	Inés Coelho	A&D
15	Small cetacean distribution in North Atlantic Iberian Peninsula waters 2007-2019	Paula Gutiérrez-Muñoz	A&D
17	Dolphins in the city: towards a collaborative framework to assess dolphins' occurrences in Tagus estuary, Portugal	Ana Rita Luís	A&D
19	Residency patterns and site fidelity of Risso's dolphins (Grampus griseus) in the central Catalan coast (Northwest Mediterranean Sea)	Ricard Marcos-Ayala	A&D
21	Western gray whales (Eschrichtius robustus) on their summer feeding ground off Kamchatka, Russia in 2022	Evgeniia Volkova	A&D
23	Preliminary results of a cetacean small scale monitoring around Western Sicily (Central Med Sea)	Martina Gregorietti	A&D
25	A photo-identification study of a foraging aggregation of male sperm whales in Northern Norway	Zoé Morange	A&D
27	The effect of season, annual variation, and bathymetry on bottlenose dolphin (Tursiops truncatus) occurrence and abundance in Sussex, U.K. with the use of citizen science sightings data.	Hannah Elms	A&D
29	Occurrence and Haul-out Pattern of a Mediterranean Monk Seal Colony Inhabiting the Inner Ionian Sea Archipelago, Greece.	Manel Gazo	A&D
31	Calibration indexes for boat-based estimates of Striped dolphin (Stenella coeruleoalba, Meyen 1833) group size.	Roberta Piga	A&D
33	Vacation in Lisbon? Occurrence and habitat use of Delphinus delphis in the Tagus Estuary, Portugal.	Nádia Jesus	A&D
35	A pilot study confirming an annual aggregation of harbour porpoise (Phocoena phocoena) in the Longhope Bay area of Scapa Flow, Orkney	Emma Neave-Webb	A&D
37	Around the Atlantic Ocean in 136 days: An opportunistic visual, acoustic, and molecular survey of marine mammals on a 23,500 km journey	Dóra Székely	A&D
39	Abundance and Residence Patterns of Risso's Dolphins (Grampus griseus) off Tenerife, Canary Islands	Elisabet Badosa	A&D
41	Long-finned pilot whale abundance estimate in the western Mediterranean Sea	Jose Luis Murcia Abellan	A&D
43	Combining acoustic and visual cetacean monitoring in Northern Portugal	Margo Paris	A&D
45	Winter Presence and Distribution of Cetacean Species in the NW Mediterranean Sea	Vanessa Levati	A&D
47	Multi-Species Occurrences of Cetaceans in the Western Mediterranean Sea: a Proxy for the Identification of Biodiversity Hotspots?	Maria Chiara Intaglietta	A&D
49	Threatened cetaceans off the coast of Israel and long-range movement of a sperm whale.	Kirsten Thompson	A&D

51	Whistles and bray-call variability in a Mediterranean bottlenose dolphin population: the effect of the context variables	Giulia Pedrazzi	AC
53	An Acoustic Alert System to mitigate dolphin depredation of fishing nets	Alessandra Raffa	AC
55	Whistle parameters in bottlenose dolphins (<i>Tursiops truncatus</i>) in the Gulf of Trieste, northern Adriatic Sea	Giulia Luerti	AC
57	Marco? Polo! - An exploration of repeated call types and their role in enabling matriline-specific dialects to occur within the Short-finned pilot whale population of Tenerife's South West coast.	Sarah McCafferty	AC
59	Listening to Bottlenose dolphins (<i>Tursiops truncatus</i>) using HydroMoths - cost-effective hydrophones as alternatives for cetacean acoustic monitoring	Jasmine Stavenow	AC
61	Large-scale survey data in support of noise impact assessment in the Black Sea	Veronica Frassà	AC
63	Click-click, who's there? Acoustically derived size structure of sperm whales in offshore Irish waters	Cynthia Barile	AC
65	Common dolphin and bottlenose dolphin communication influenced by touristic boats in the Algarve, Portugal	André Cid	AC
67	Using passive acoustic to better understand dolphins' behaviour around fishing nets in bycatch context	Mathieu Dupont	AC
69	Tracking of common dolphins <i>Delphinus Delphis</i> using Time Delay of Arrivals' signals recorded by a small hydrophones array.	Loïc Lehnhoff	AC
71	Baleen whale detection in the Gulf of Corcovado (Chile)	Mike van der Schaar	AC
73	Influence of vessel noise and light regime on finless porpoise (<i>Neophocae asiaeorientalis</i>) echolocation characteristics in Seto Inland Sea and Mikawa Bay, Japan	Mayu Ogawa	AC
75	Potential signature whistles identified in groups of inner Mediterranean sub-population of long-finned pilot whales (<i>Globicephala melas</i>).	Federico Antilli	AC
77	Influence of animal spatial distribution on passive acoustic density estimation from single sensors	Marzia Baldachini	AC
79	First attempt to Record minke whale (<i>Balaenoptera acutorostrata</i>) in Irish inshore waters	Patrick Lyne	AC
81	First description of seasonal acoustic occurrence and behaviour of Humpback Whales (<i>Megaptera novaeangliae</i>) in Southern Iceland	Carola Chicco	AC
83	Functional differences between whistle types in wild populations of bottlenose dolphins (<i>Tursiops truncatus</i>).	Olga Irene Mosca	AC
85	Assessing the spatial interactions between marine vessels and bottlenose dolphins (<i>Tursiops truncatus</i>) in Montenegro, South Adriatic Sea	Evie White	BEH
87	Study of Bottlenose dolphins' association with aquaculture and tuna penning activities in Maltese waters	Isaak Koroma	BEH
89	Movements of bottlenose dolphins: challenging the existing narratives?	Tilen Genov	BEH
91	The bottlenose dolphin population in northern Catalan waters (Mediterranean Sea): insights on distribution, behavior, and trawling activity influence.	Carla A.Chicote	BEH
93	Kinematics of foraging behavior of Chilean blue whales (<i>Balaenoptera musculus chilensis</i>)	Adi Ayoub	BEH
95	High-frequency pingers do not increase seal depredation in Baltic Sea fisheries	Ida Carlén	BEH
97	Bottlenose dolphin (<i>Tursiops truncatus</i>) habitat partitioning in relation to age-classes in the Western Ligurian Sea	Elena Fontanesi	BEH
99	Stable long-term associations between Risso's dolphins of São Miguel, Azores	Rafael Martins	BEH
101	Reviewed ethograms for cetacean species in the Mediterranean Sea: an updated approach to ethological analysis	Laura Pintore	BEH
103	Preliminary findings on the use of caves by Mediterranean monk seals, Ionian Sea, Greece	Aliki Panou	BEH
105	The Great Escape: Long-distance movements of two bottlenose dolphins between the Gulf of Ambracia (eastern Ionian Sea) and Gulf of Trieste (northern Adriatic Sea)	Joan Gonzalvo	BEH
107	Male sperm whales' (<i>Physeter macrocephalus</i>) foraging activity in the Western Ligurian Sea (North-western Mediterranean Sea)	Valerio Comple	BEH
109	Interspecific interactions between short-beaked common, Atlantic spotted and striped dolphins	Lara Costa	BEH

	in the Pico Island, Azores		
111	Passive Acoustic Monitoring to discover the hidden nightlife of wild bottlenose dolphins (<i>Tursiops truncatus</i>) in Northeast Atlantic waters (NW Spain)	Quentin Bacquelé	BEH
113	Spatial evaluation of the Natura 2000 network for the protection of species of community interest in the Bay of Biscay	Maite Louzao	CON
115	Governance of (mobile) Marine Protected Areas for the conservation of the harbour porpoise in the (German) North Sea	Wiebke Homes	CON
117	Depredation impacting the Reunion Island pelagic longline fishery: an interview-based approach to survey fishers' perception	Njaratiana RABEARISOA	CON
119	Review and update of Management Units for cetaceans in UK waters	Emily Martin	CON
121	Fishers as sentinels of the sea in data collection for cetacean conservation	Clara Monaco	CON
123	Marker Project : Evaluation of the impact of whale-watching and the High Quality Whale-Watching® certification in the Mediterranean Sea.	Laurène TRUDELLE	CON
125	25 Years of Research and Marine Protected Area for Cetaceans and Marine Turtles in the Strait of Gibraltar.	Edgard Ballesta	CON
127	Enlightening the Path of Knowledge to the Sperm Whales of the East: Initial results on the individual identification, social structure and potential threats in the Eastern Mediterranean Sea of Turkey	Aylin Akkaya	CON
129	Le Vele del Panda Project: an example of how Citizen Science can become a key to conservation for the protection of cetaceans in the Mediterranean Sea	Joelle Montesano	CON
131	How to efficiently protect the new haul-out of grey seals (<i>Halichoerus grypus</i>) - guidelines for tourist boat traffic in Poland	Michał Podgórski	CON
133	Presentation of the Spanish national Plan for the reduction of the accidental catches in the fishing activity.	rafael centenera ulecia	CON
135	Artisanal Fisheries - Cetacean Interactions in the Canary Islands, an Initial Overview	Alicia Rodríguez Juncá	CON
137	Integrated and long-term monitoring for cetacean management in the French Mediterranean MPA network	Hélène Labach	CON
139	The ghost labyrinth: quantifying illegal Fish Aggregating Devices (FADs) in the Southern Tyrrhenian Sea cetacean corridor.	Alberto Demetrio Sechi	CON
141	UK fishing gear strategy and targets required to reduce waste and cetacean bycatch	Sonja Eisfeld-Pierantonio	CON
143	One team, one dream: sustainability of whale and dolphin watching in the Strait of Gibraltar	Alessia Scuderi	CON
